**Product Manager, Coinme**  
Reports to the VP of Product

At Coinme, our goal is to improve the financial lives for everyone by providing easy and ubiquitous access to consumer financial services built on blockchain technology. We believe that decentralization in finance through digital assets can transform the world by giving the power (and earnings) back to individuals. In order to accomplish this, Coinme is building out the world’s largest physical cash onramp to cryptocurrencies, a mobile-first digital bank-like experience as well as provide Decentralized Finance (DeFi) services on a digital wallet. We envision a world where people will store, trade, and pay with their money on Coinme.

This is a rare opportunity for a growth-minded individual to join a fast-growing exciting mission that will significantly impact the financial services industry and transform the lives of billions of people around the world.

To support this mission, we are looking for a customer-obsessed, data-centric, experienced product manager to help define and drive the Coinme roadmap with compelling, innovative fintech solutions to solve customer pain points. This role requires not only excellent overall product management experience, but also direct experience in the FinTech space, with a deep understanding of crypto currency and related FinTech products to help define the future of innovative crypto products at Coinme.

**PRIMARY RESPONSIBILITIES**

- Drive product strategy and development balancing company vision with customer needs
- Understand user needs, behavior and expectations through customer engagement, research, and diving deep into quantitative data
- Be an expert on the market, the domain, the trends
- Collaborate cross-functionally
- Lead by influence, both inside and outside the company

**REQUIRED SKILLS AND EXPERTISE**

- 2+ years of experience as a Product Manager in a fintech company.
● 4+ years of experience as a SAAS-based Product Manager
● Deep experience within the crypto space required.
● Track record of quickly delivering high-quality user experience, with exposure to a large consumer app or platform
● Track record of delivering a mobile app or mobile first experiences
● Experience working on a large scale platform or infrastructure
● Ability to lead and work autonomously, with a strong track record of execution
● Strong analytical and troubleshooting skills
● Thrive in a fast-paced, entrepreneurial environment with an ownership mentality
● Plan product launches and drive action throughout the organization to get products to market
● Plan and maintain the product backlog
● Participate in all aspects of the product development process from idea identification to go to market and retention
● Knowledge of Jira/ConfluenceDeeply curious and motivated to push the boundaries to create delightful solutions and experiences

PREFERRED

● Experience with international fintech expansion a strong plus
● SaaS background, technical expertise, online investing or finance experience, startup history

EDUCATION

● Bachelor's Degree
● MBA is a plus

COMPENSATION & BENEFITS

● Competitive salary
• Company sponsored comprehensive health benefits package including health, dental, vision, life, and more. (Some plans are 100% company paid)
• Option to participate in company-matched 401(k) plan
• Paid holidays
